

AtomQuest Goal Portal - Hackathon Submission

In-House Goal Setting & Tracking Portal

Submission Deliverables

#	Deliverable	Details
1	Live / hosted demo URL	https://atomquest-907l.onrender.com/
2	Source code repository	https://github.com/coder200412/Atomquet
3	Architecture diagram	Included below and available at docs/architecture_diagram.png
4	Role credentials / user journeys	Demo credentials below; public Employee/Manager signup is enabled.

Login Credentials

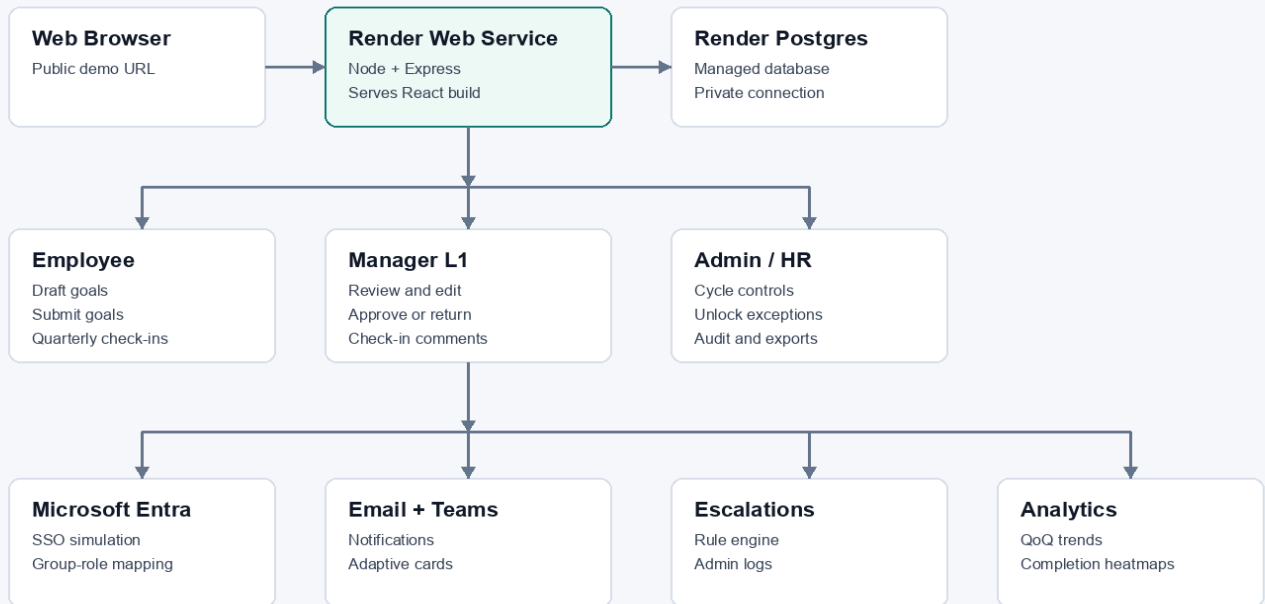

All seeded demo accounts use **password123**. Visitors can also create a new Employee or Manager account from the login screen.

Role	Email	Password
Admin / HR	admin@atomquest.local	password123
Manager	maya.manager@atomquest.local	password123
Manager	karan.manager@atomquest.local	password123
Employee	neha.employee@atomquest.local	password123
Employee	arjun.employee@atomquest.local	password123
Employee	diya.employee@atomquest.local	password123

AtomQuest Goal Setting and Tracking Portal

React + Express + Prisma + Render Postgres, hosted on Render

BRD Coverage Summary

Area	Implemented Coverage
Goal creation and validation	Goal title, description, thrust area, UoM, target, and weightage with 10% minimum, 8-goal maximum, and 100% weightage
Approval workflow	Managers review submitted sheets, edit during review, approve, or return for rework. Approved sheets are locked for editing
Quarterly check-ins	Employees log actual achievements and status by quarter; managers add structured comments.
Reporting and governance	Admin dashboard, CSV export, completion tracking, audit trail, cycle override, and exception unlock.
Bonus modules	Microsoft Entra simulation, Email/Teams notifications, escalation rules, adaptive cards, QoQ trends, heatmap

Render Deployment

Setting	Value
Build Command	npm install && npx prisma generate && npm run build
Start Command	npm run db:deploy && npm run start
Database	Render Postgres using DATABASE_URL internal connection string
Public Signup	Enabled for Employee and Manager accounts
